Oracle's AI Play: The database will speak your language

Oracle EVP Juan Loaiza discusses Oracle's AI

"We're baking AI directly into our Oracle database," he said. "You can run any kind of AI operation directly against the data inside the database where it gets ... instantaneous access to the data ... you no longer need to speak the language of databases. The database will speak your language."

Autonomous for Developers

Low-cost - less than USD 30 a month

Autonomous Database is now an affordable option to get started with a database in the cloud. Despite its low cost, users may access both powerful Autonomous Database features as well as built-in tools. This offering is also available as a Container Image, which includes the ability to work offline for development and testing, and then clone and easily deploy the instance in the Cloud.
